

Fall/Winter

PRECIOUS METAL CLAY JEWELRY in COPPER

Saturdays: February 12th & March 19

Time: 9:30-12:00

Cost: \$135.

Lab Fee: \$24.00 Includes 30 grams each of pink and white copper clays and other materials needed

16 years and older, no experience necessary

Students will learn the skills to work in white and pink copper Precious Metal Clay to create various jewelry pieces.

Precious Metal Clay is a material that is clay in form, works like clay and is fired in a kiln. After firing the result is a hard metal copper piece of jewelry.

Previous clay working experience is not necessary. Forming, texturing, layering and finishing techniques will all be covered, along with more advanced techniques for those students who have worked with PMC. Students will be creating and working at their own speed as the class unfolds. Students will have the use of the instructor's tools and equipment for the class.

Come learn some new skills and have fun with an amazing material.
